

**ЕДИ МАРИНОВ**  
**ASLEEP ALONE**

[chitanka.info](http://chitanka.info)

*Asleep alone, with no one in my arms to see  
I throw myself with eyes wide closed  
For you I search for, in the dark to be  
And yet you're in the dark indeed.*

*I seize the day, the light my sacred dream  
I long for you, the beauty is supreme  
but I awake and you — nowhere to find  
the trap awaiting in the blind  
the trap so deeply dug with hands and art  
which shaped, took over and destroyed my heart*

*Again alone, the room is silent and exposed  
Again afraid, the nightmare climbing on my tree  
I throw myself with eyes wide closed  
Asleep alone, with no one in my arms to see.*
